

Wonderland's Week Two Newsletter

July 6th - July 9th

Wonderland
DEVELOPMENTAL CENTER

Week two! We had quite a few campers return from last week, as well as some brand new friends! It was such a treat to get to know our new campers as well as see the continued progress our week one friends were making. This week we continued our routine of playing with table time manipulatives and then transitioning to a whole group circle. At circle we practiced singing songs and signing to build imitation and target language and participation. On Wednesday we sang a funny song called "Willaby, Wallaby, Woo." The lyrics were: "willably, wallaby, washley, and elephant sat on Ashley (we inserted each camper's name and there were lots of giggles!)."

Structured routines during guided free play! Each day there were adult guided art projects that targeted following directions and fine motor skills as well as sensory exploration activities. Our campers had such a great time investigating all of the materials and textures. Play doh was by far the favorite ☺ Our campers also enjoyed playing in shaving cream, exploring water play and investigating the textures and objects in the sand box! These are great ways to incorporate new play skills, language concepts, and scientific exploration!

We had the best time getting to know our Wonderland campers!

Dramatic play! Our campers were excited to play with the same toys as last week and incorporated some fun new cooperative play ideas!
